

Excavator Bucket Teeth

These high-strength steel bucket teeth are designed for construction machinery. They are engineered for optimal digging performance and durability in demanding excavation applications.

Product Overview

High-Performance Excavation Teeth

These excavator bucket teeth are engineered for heavy-duty construction and earthmoving applications. Manufactured using a precise lost wax casting process, they deliver superior durability and wear resistance in demanding environments. Designed to meet strict quality standards, these components offer reliable digging performance and an extended service life for construction machinery.

Technical Specifications

Available Colors

Yellow • Black • Green • Gray

Part Number	81010630
Material	Alloy steel
Weight	7.6 kg
Hardness	48-52 HRC
Impact Resistance	18 J
Production Method	Lost wax casting

Compatibility

Supported Machine Styles

- Komatsu style
- Hyundai style
- ESCO style
- Kobelco style
- Doosan style
- H&L style
- Hidromek style
- Bofors style
- Terex style
- Volvo style

Quality & Compliance

Quality Compliance	ISO9001:2008
