

Excavator Bucket Tooth

This is a replacement bucket tooth designed for construction machinery. The tooth is engineered to withstand high-impact forces and abrasive conditions.

Product Overview

High-Performance Excavation Component

This excavator bucket tooth is engineered for durability and precise fit in heavy-duty digging applications. Manufactured using a lost wax casting process, it features high-grade alloy steel construction designed to withstand significant impact and abrasive conditions. This component ensures reliable performance and longevity for construction machinery maintenance.

Technical Specifications

Part Number	53103205
Material	Alloy steel
Manufacturing Process	Lost wax casting
Hardness	48-52 HRC
Impact Resistance	>= 18J
Weight	2.5 kg

Compatibility & Options

Available Colors

Yellow • Black • Green • Gray

Customization Capability

- Custom designs based on drawings
- Custom samples
- Custom material specifications
- Custom mechanical properties
- Custom color finishes

Compatible Machine Series

JCB 3CX, JCB 4CX

Quality & Standards

Shipment Lead Time

15 days

Min Lead Time

40 days

Max Lead Time

Quality Standards
