

# Excavator Bucket Tooth Adapter

This adapter facilitates the secure attachment of teeth to construction equipment. It is built for durability and performance in demanding construction environments.

## ADDITIONAL IMAGES

## Product Overview

### Heavy-Duty Excavator Component

This excavator bucket tooth adapter is engineered for PC120-3 series construction machinery. Designed to facilitate the secure attachment of digging teeth, it ensures reliable performance and efficiency during earthmoving and excavation tasks. Built for durability in demanding construction environments, this component is an essential replacement part for maintaining equipment functionality.

## Compatibility & Specifications

### Associated Part References

- 19011
- 202-70-12130

### Component Type

RC Tooth Adapter • Excavator Spare Part

### Compatible Machine Models

PC120-3

## Technical Details

### Key Performance Metrics

**1 Digging**

Application

**1 Hardened Steel**
