Overview

High-Performance Excavator Bucket Adapter

This bucket tooth adapter is specifically engineered for PC200 series excavators, providing a robust and reliable connection for bucket teeth in demanding digging environments. Manufactured using advanced casting processes and alloy steel, it offers exceptional impact toughness and wear resistance to maximize operational uptime. With a precision-machined finish and CNC-drilled holes, it ensures a perfect fit and easy installation for professional construction and mining applications.

Technical Specifications

Net Weight

8.1 kg

Minimum Weight

8.4 kg

Maximum Weight

Part Number 205-939-7120

Material Alloy Steel

Hardness HRC 47-52

Compatibility & Application

Compatible Machines

Komatsu PC200, Caterpillar, JCB, Hyundai, Doosan

Manufacturing & Quality

Production Advantages

- Professional casting equipment
- CNC drilling for accurate bolt hole alignment
- Automatic electrostatic spray painting line
- Smooth and high-quality surface finish

Certifications

ISO9001: 2015 • SGS Certified

Supply & Logistics

Order Details

Parameter	Value
Minimum Order Quantity	10 pc
Delivery Time	30-35 days
Packaging	Plywood Case
Loading Ports	Ningbo, Shanghai, Guangzhou, Yiwu

Service & Warranty

Buyer Support

- Technical support for end-users
- Market exploration assistance
- Exclusive treatment for regional agents

Warranty Coverage

24 months quality warranty with free replacement for abnormal wear or breakage under normal working conditions.
