Product Overview

High-Performance Excavator Bucket Tooth

The DH130-5 series bucket tooth is engineered for demanding construction machinery applications, offering exceptional wear resistance and reliability. Designed with precision, this component ensures optimal digging performance and longevity across various soil conditions. The series includes specialized RC and TL configurations to meet specific excavation and trenching requirements.

Technical Specifications

Available Configurations

- Standard Tooth
- RC Tooth
- TL Tooth

Compatible Series

DH130-5

Quality & Standards

Certifications

ISO 9001:2008

Key Features

- High wear resistance
- Fine workmanship
- Stable product performance
- Robust construction
