

Excavator Bucket Weld-On Adapter

Weld-on adapter designed for connecting ground engaging tools to excavator buckets. It is compatible with Komatsu PC300 excavators.

Product Overview

Heavy-Duty Weld-On Adapters

These weld-on adapters are essential components for excavator buckets, designed to facilitate the secure attachment of ground engaging tools such as teeth and blades. Engineered for durability and high performance, they are suitable for demanding earthmoving and excavation applications. This component ensures a robust connection, maintaining bucket integrity under heavy operational stress.

Compatibility

Compatible Equipment Brands	Excavator, Earthmoving Machinery
