

Excavator Pin and Bushing Set

High-strength steel pin and bushing set designed for excavator applications. Precision-engineered for optimal fit and durability, ensuring reliable performance in demanding construction environments.

Product Overview

Heavy-Duty Excavator Components

This excavator pin and bushing set is engineered for durability and long wear life in demanding construction environments. Each component undergoes specialized heat treatment to withstand heavy loads and reduce operational wear. Designed for precision fit, these replacement parts help maintain optimal performance and extend the lifespan of your heavy machinery.

Compatibility

Compatible Equipment Series

- D3C, E120, 311, 312, D4D, 320, E200B, 330, D6D
- PC60, PC100, PC200, D50, D55, PC200-5, PC200-6, PC300, PC400-1
- EX100, EX120, EX200, UH04, EX200-2, EX200-3, EX300-1, EX300-2

Technical Details

Manufacturing Process	Heat Treated, Precision Engineered
Part Reference	42-BCC
