

Excavator Side Cutter Protector Shroud

This side cutter protector shroud is designed for Hitachi excavators. It provides enhanced protection and cutting performance to ensure optimal operation and longevity.

Product Overview

Heavy-Duty Side Protection

This robust side cutter and protector shroud is engineered to provide essential wear protection and enhanced cutting performance for excavators and loaders. Designed to withstand harsh operating environments, the component ensures the longevity of your bucket assembly. Its precise fitment allows for easy installation, maintaining optimal equipment efficiency during heavy-duty operations.
