

# Excavator Side Cutter with 4 Mounting Holes

This side cutter is designed for CAT E200 excavators. It features 4 mounting holes for secure attachment and is made from durable materials for wear resistance.

## Product Overview

### Heavy-Duty Excavator Side Cutter

This high-quality side cutter is engineered specifically for heavy-duty earthmoving and excavation tasks. Featuring a robust construction with 4 mounting holes, it ensures a secure and reliable attachment to your machinery. Designed for extended wear resistance, this component helps maintain optimal cutting performance and enhances overall machine productivity in demanding work environments.

## Technical Details

Part Number	096-4748
Mounting Holes	4
Compatible Equipment	Excavators, Metal Forming Machines

## Performance Features

### Performance Highlights

- Extended wear resistance
- Secure 4-hole mounting
- Optimal cutting performance
- Enhanced machine productivity
