Overview

Heavy-Duty Ground Engaging Tools

This durable excavator tooth adapter assembly is engineered for demanding earthmoving and construction environments. Designed to provide a secure and reliable connection, the system includes essential pins and retainers to minimize downtime and maximize operational productivity. Its robust construction ensures extended wear life and optimal penetration performance in heavy-duty digging and material handling applications.

Compatibility

Supported Equipment

- Excavators
- Loaders
- Bulldozers
- Electrical Shovels

Compatible Machinery Types

Excavator, Loader, Bulldozer, Electrical Shovel

Components

Available Components

Bucket Teeth • Adapters • Pins • Retainers • Side Cutters • Ripper Shanks • Shims • Bolts & Nuts

Technical Specifications

Available Tooth Profiles

- Dirt Tooth
- Rock Chisel Tooth
- Abrasion Tooth
- Tiger Tooth
- Ripper Tooth
- Unit Tooth

Adapter Configurations

- Corner Adapter
- Centre Adapter
- Weld-on Adapter
