

Exhaust Fan

This high-performance electrical fan is designed for exhaust applications. It is equipped with a standard white PVC fitting for easy connection to ventilation systems.

Product Overview

High-Performance Ventilation Solution

This high-performance electrical fan is engineered for efficient air extraction in both household and industrial environments. It features a robust black housing and durable construction to ensure long-lasting reliability. With a secure mounting base and a standard white PVC fitting, this unit is designed for straightforward integration into existing ventilation systems.

Technical Details

Model Identifier	KING 08 RIA XL
Housing Color	Black
Connector Type	White PVC Fitting

Features

Key Attributes

Durable Construction • Secure Mounting • High Performance

Application Areas	Household, Industrial, Ventilation Systems
