

Expandable Garden Hose with Spray Nozzle

This expandable garden hose automatically extends up to three times its length when water is turned on. It includes a multi-pattern spray nozzle with adjustable settings for various watering needs and retracts when water is off.

Product Overview

High-Performance Expandable Garden Hose

This telescopic garden hose is engineered for durability and convenience, featuring a robust alloy construction and a metal spray nozzle. Designed to automatically expand up to three times its original length when in use, it offers a powerful 15-meter spray distance. With its copper-plated, wear-resistant, and explosion-proof design, this hose is built to withstand rigorous outdoor conditions while remaining lightweight and easy to store.

Technical Specifications

Max Water Pressure	8 kg
Spray Distance	15 M
Expansion Ratio	3x

Material & Construction

Material	Alloy, Copper-plated
Nozzle Material	Metal
Key Features	Wear-resistant, Sun-proof, Explosion-proof, Aging-resistant
