Product Overview

Professional Expanding Foam Dispenser

This professional-grade foaming gun is engineered for the precise application of expanding polyurethane foam. Designed with a durable metal construction and an ergonomic handle, it ensures comfortable and controlled operation for sealing gaps, cracks, and joints. Its adjustable flow control minimizes waste, making it an ideal tool for construction, insulation, and professional sealing projects.

Construction & Materials

Barrel Material	Chrome-plated metal
Nozzle Material	Brass
Valve Construction	Thickened carbon steel

Features

Key Features

- Adjustable flow control
- Ergonomic handle design
- Anti-corrosion barrel
- Easy-clean nozzle
- Integrated hanging hole for storage

Compatibility	Standard foam canisters
