

Expansion Joint Hardware Parts

Expansion joint hardware parts facilitate thermal expansion and contraction in piping systems. These parts are available in sizes ranging from 50mm to 200mm with dimensional specifications including lengths (L) and dimensions A and B.

Product Overview

Expansion Joint Hardware Components

These high-quality expansion joint hardware parts are engineered for reliable performance in industrial piping and structural applications. Available in a wide range of nominal diameters from 50mm to 200mm, these components ensure precise alignment and secure installation. The comprehensive selection of sizes and dimensional configurations provides the flexibility needed to meet diverse project requirements.

Technical Specifications

Size and Dimensional Data

Code	Nominal Diameter (mm)	L (mm)	A (mm)	B (mm)
DH50/A	50	25	2.5	40
DH75/A	75	41	3	59
DH110/A	110	50	5	70
DH110/A1	110	50	5	70
DH160/A	160	60	5	80
DH200/A	200	70	5	95

Model Highlights

High-Precision Engineering • Multi-Size Compatibility • Standardized Metric Design

Available Diameters

50mm, 75mm, 110mm, 160mm, 200mm
