

Extendable Car Radio Antenna

This extendable car radio antenna enhances signal reception for AM/FM radio bands. It features a telescopic design for adjustable length and improved performance.

Product Overview

High-Performance Telescopic Antenna

This extendable car radio antenna is engineered to provide enhanced signal reception for both AM and FM radio bands. Its versatile telescopic design allows for adjustable length to optimize performance based on your specific needs. Built with durable materials, it is designed to withstand diverse weather conditions, making it an ideal choice for vehicle upgrades or replacing damaged antennas.

Technical Specifications

Installation Features

- Telescopic adjustable length
- Includes two adjustable mounting brackets
- Universal compatibility for various vehicle models

Durability

Weather-resistant • Durable construction

Model Number	YJ0344
Supported Bands	AM, FM
