

# Extendable Long Reach Pruning Shear

These pruning shears feature extendable handles for increased reach and leverage. The cutting head is engineered for clean and precise cuts, promoting plant health.

## ADDITIONAL IMAGES

## Product Overview

### Professional Telescopic Pruning Shear

This telescopic pruning shear is engineered for professional gardening and landscaping tasks, offering an extendable reach between 51 and 76 cm. The high carbon steel blade features a non-stick coating and a specialized geometry designed to secure branches in the optimal position for clean, effortless cuts. With a focus on user comfort and durability, the tool incorporates ergonomic soft-grip handles to minimize strain during extended use.

## Technical Specifications

Minimum Length	51 cm
Maximum Length	76 cm
Blade Material	High Carbon Steel
Handle Materials	PP, TPR
