

# Extendable Pole Chainsaw for Tree Pruning

This extendable pole chainsaw is designed for pruning and trimming high branches safely from the ground. It features a powerful motor, durable chain, and adjustable length for versatile use.

## ADDITIONAL IMAGES

## Product Overview

### Professional Tree Pruning Efficiency

This extendable pole chainsaw is designed for safe and efficient tree pruning and branch maintenance directly from the ground. Featuring an 18V brushless motor, it provides reliable power for consistent cutting performance. The adjustable length and automatic lubrication system ensure user comfort and tool longevity, making it an essential addition for landscaping and grounds maintenance tasks.

## Technical Specifications

### Cutting Performance

**200 mm**  
Cutting Length

**270 m/min**  
Chain Speed

### Reach & Dimensions

**2170 mm**  
Min Length

**2750 mm**  
Max Length

**242 mm**  
Bar Length

Motor Type	18V Brush Motor (787)
