

Eye Protection LED Bulb

This LED bulb is designed with eye protection in mind, providing a gentle and comfortable light. It is suitable for various lighting applications, offering energy efficiency and long-lasting performance.

Product Overview

Eye Protection LED Technology

This LED bulb is engineered with advanced eye protection technology to provide a gentle, flicker-free light source suitable for home, office, and public spaces. Designed with a durable aluminum and plastic housing, it ensures efficient heat dissipation and long-lasting performance. The bulb is compatible with a wide range of applications and features an IC driver for stable operation.

Technical Specifications

Available Wattage

- 3W
- 5W
- 7W
- 9W
- 12W
- 15W
- 18W

Luminous Efficacy	90 lm/w
Color Temperature Range	3000K - 7000K
Color Rendering Index (CRI)	80
Input Voltage	AC170-240V

Performance Metrics

Performance Highlights

20000 Hours

Working Lifetime

0.9

Power Factor (PF)

Physical & Compatibility

Compatible Base Types	E27, B22, E14, E40
Body Material	Aluminum and Polycarbonate (AL+PC)

Compliance & Warranty

Certifications

CE • RoHS • EMC • LVD • CQC • BV • SASO

Warranty

2 Years
