Product Overview

Professional Grade F-Clamp

This F-clamp is designed to meet the rigorous demands of professional woodworking and DIY projects, adhering to the German DIN5117 standard for reliability. Constructed with a high-strength carbon steel rail and durable malleable or ductile iron jaws, it provides consistent clamping force for assembly, gluing, and welding tasks. The ergonomic plastic handle is available in multiple color configurations, ensuring user comfort and reduced fatigue during extended operation.

Technical Specifications

Standard
DIN5117

Handle Options

- Double color plastic handle (3 types)
- Single color plastic handle (1 type)

Size and Capacity Specifications

Model	Opening (mm)	Throat Depth (mm)	Bar Size (mm)
FCG-P50	100-600	50	15x6
FCG-P80	150-800	80	22x6
FCG-P100	200-1000	100	27x7
FCG-P120	200-2000	120	30x8
FCG-P140	200-2000	140	32x10

Material Composition

Carbon Steel Rail, Malleable Iron Jaw, Ductile Iron Jaw, Carbon Steel Spindle

Applications

Primary Applications

Woodworking, DIY, Metalworking, Assembly, Gluing, Welding
