

F-Type Male to F-Type Male Coaxial Cable

Coaxial cable ensures reliable signal transmission. It features F-type connectors for secure and efficient connectivity, suitable for TVs, satellite receivers, and modems.

Product Overview

Professional Coaxial Connectivity

This high-quality coaxial cable is engineered for reliable signal transmission across various professional and residential applications, including TVs, satellite receivers, and modems. Featuring double shielding to minimize signal interference and loss, it ensures optimal signal integrity. Built with durable materials, this 75 Ohm cable provides a secure and efficient connection for long-lasting performance.

Technical Specifications

Impedance	75 Ohms
Connector Type	F-Type Male to F-Type Male
Outer Diameter	6 mm
Shielding	Double Shielded

Certifications & Origin

Country of Origin	China
Key Features	75 Ohm, Double Shielded, High-Quality
