

Facial Steamer for Deep Pore Cleansing

This facial steamer is designed for deep pore cleansing and skin hydration. It uses a heating element to convert water into nano-sized steam particles, penetrating the skin to unclog pores and remove impurities.

Product Overview

Professional Deep Pore Cleansing

This facial steamer is engineered for deep pore cleansing and intensive skin hydration, utilizing advanced heating technology to convert water into nano-sized steam particles. These particles penetrate deeply to effectively unclog pores while removing dirt, oil, and makeup residue. Designed for a spa-like experience at home, the device promotes improved circulation and enhanced skin elasticity, making it a versatile tool for various skincare routines.

Technical Specifications

Power Consumption

280 W

Power Rating

Voltage	110-240V, 50/60Hz
Water Tank Capacity	70 ml
Steam Temperature	40 °C

Features & Benefits

Key Features

- Nano-sized steam particle technology
- Automatic shut-off safety function
- Adjustable steam levels
- Compatible with essential oils for aromatherapy

Skin Benefits

Deep Pore Cleansing, Hydration, Improved Circulation, Enhanced Elasticity, Acne Reduction

Usage

Suitability

All Skin Types
