

Facial Steamer for Home Use

This facial steamer offers a spa-like experience at home. It utilizes warm steam to open pores, facilitating deep cleansing and enhanced circulation.

Overview

Spa-Quality Facial Care at Home

This home-use facial steamer is designed to provide a professional spa-like experience, utilizing warm steam to open pores for deep cleansing and improved circulation. Featuring a contoured facial mask for comfort and adjustable steam levels, it helps hydrate the skin, reduce acne, and promote a healthy complexion. The device is built with durable, heat-resistant materials to ensure safe and long-lasting performance.

Technical Specifications
