

Facial Steamer for Skin Hydration

This facial steamer uses steam to open pores, hydrate skin, and improve circulation. It features a contoured facial mask for comfort and adjustable temperature control.

Product Overview

Professional Facial Hydration

This facial steamer is designed to provide a spa-quality skincare experience from the comfort of home. Utilizing advanced PTC fast-heating technology, it generates soothing steam in under three minutes to help open pores, hydrate skin, and improve circulation. With safety features like over-heating protection and a non-stick pan design, it offers both performance and peace of mind for daily skincare routines.
