

Fall Protection Safety Belt with Lanyard

This safety belt is designed for fall protection. It features durable nylon webbing with reinforced stitching, a secure metal buckle closure, a white rope lanyard, and a self-locking snap hook.

Product Overview

Industrial Fall Protection System

This professional-grade safety belt is engineered to provide reliable fall protection in demanding industrial and construction environments. Constructed from high-strength polyester webbing with reinforced stitching, it ensures maximum durability and worker security during high-altitude tasks. The system is equipped with dual D-rings, a secure buckle closure, and an integrated toolbox for enhanced utility on the job site.
