

# Far-Infrared Electric Space Heater

This electric heater uses far-infrared technology to provide efficient and directional heating. It features multiple power settings and a protective metal grille for safety.

## ADDITIONAL IMAGES

## Overview

### Efficient Far-Infrared Heating

This far-infrared electric space heater offers a versatile heating solution designed for comfort and safety. With dual power settings and wide-angle oscillation, it provides customizable warmth tailored to your environment. Its compact, cylindrical design and integrated safety features, such as automatic tip-over protection, make it a reliable choice for indoor spaces.

## Technical Specifications

### Power Options

- 450W
- 900W

### Oscillation Angle

70 degrees

### Operating Modes

Low Heat, High Heat, Low Heat Oscillation, High Heat Oscillation

## Safety & Features

### Safety Features

Auto Power-Off • Tip-Over Protection • Protective Metal Grille
