

Fashionable and Energy-Saving Car

This car is both fashionable and energy-saving. It features a McPherson independent front suspension and a double fork arm with a double inflatable acting shock absorber and spiral spring rear suspension.

Overview

Versatile Multi-Configuration Vehicle

This vehicle series offers flexible powertrain configurations, including both diesel and gasoline options tailored for efficiency and power. Designed with a robust 4500mm frame and a spacious 776L baggage capacity, it is built for both utility and passenger comfort. Each model is engineered with advanced fuel injection systems and meets modern emission standards to support professional operational requirements.
