Product Overview

High-Performance Drilling Solution

The FD-PLUS Dual Cutter Hammer Drill Bit is engineered for demanding construction and renovation applications. Featuring a specialized dual cutter head, this tool ensures efficient material removal, increased drilling speeds, and reduced vibration. Designed with a durable tungsten carbide tip, it provides extended tool life and consistent precision when working with concrete, masonry, and natural stone.

Technical Specifications

Shank Type	SDS-plus
Head Design	Dual Cutter
Material Compatibility	Concrete, Masonry, Natural Stone

Performance Features

Key Performance Benefits

- Durable tungsten carbide tip for extended life
- Aggressive cutting action
- Optimal material removal
- Reduced vibration during operation
- Secure fit and optimal power transmission
