

Female Threaded Stainless Steel Ball Valve with Mounting Pad

This 2-piece stainless steel ball valve features a female threaded end and a mounting pad for easy installation. The valve is designed for reliable shutoff and control of fluid flow.

Product Overview

High-Performance Industrial Ball Valve

This 2-piece female threaded stainless steel ball valve is engineered for reliable fluid flow control in demanding industrial environments. Featuring an integrated mounting pad for convenient actuator installation, it is constructed using investment casting for superior durability. With a robust pressure rating of 1000 PSI and a wide temperature range, it is compatible with various media, including water, oil, gas, and corrosive acids.

Technical Specifications

Working Pressure

1000 Psi

Working Pressure

64 PN

Pressure Rating

Compliance Standards

- Design: ANSI B 16.34
- Inspection & Test: API 589
- Structure Length: GB/T 15188.3-94

Temperature Range

-60°F to 450°F (-20°C to 232°C)

Manufacturing Method

Investment Casting

Materials & Compatibility

Available Materials

ASTM A351-CF8M (316) • ASTM A351-CF8 (304) • ASTM A216-WCB • DIN 1.4308 • DIN 1.4408

Compatible Media

WOG, Nitric Acid, Acetic Acid
