Product Overview

High-Performance FTTH Connectivity

This Fiber to the Home (FTTH) cable solution is engineered for both indoor and outdoor network deployments, ensuring reliable and high-speed data transmission. Built with a robust construction, the cable is designed to withstand environmental demands while maintaining signal integrity. It serves as an ideal infrastructure component for connecting residential and business properties to modern fiber optic networks.

Outdoor Specifications

Outdoor Features

Weather Resistant, Durable Construction, High-Speed Transmission

Indoor Specifications

Indoor Features

Compact Design, Easy Installation, High-Speed Transmission

Technical Details

Supported Environments

- Outdoor FTTH Infrastructure
- Indoor Network Distribution
