

## Fingerless Padded Cycling Gloves

These fingerless cycling gloves are designed for comfort and performance. They feature breathable fabric and padded palms for vibration absorption.

### Product Overview

Professional grade cycling gloves with reinforced padding for shock absorption.

### High-Performance Fingerless Cycling Gloves

These fingerless padded cycling gloves are engineered for road cycling and mountain biking, offering a perfect balance of comfort and control. Featuring a breathable mesh back and a durable microfiber palm, they ensure optimal ventilation and moisture management during intense rides. The integrated padding provides essential shock absorption to reduce hand fatigue on long journeys.

### Key Features

#### Key Benefits

Shock Absorption, Breathable Mesh, Moisture Management, Enhanced Grip, Adjustable Fit

## Technical Specifications

CY-C20-14  
Palm:Microfiber  
Back:Mesh

Constructed with a microfiber palm for grip and mesh backing for maximum airflow.

### Material Composition

Component	Material
Palm	Microfiber
Back	Mesh

### Design Details

- Fingerless (Half-Finger) design for dexterity
- Perforated palm for ventilation
- Reinforced padding in key pressure zones
- Adjustable wrist closure

### Item Number

KCY-C20-14
