Product Overview

Durable Protection for Fire Safety Equipment

This fire extinguisher storage box is designed to provide robust protection for fire safety equipment in both indoor and outdoor environments. Constructed from high-impact, weather-resistant plastic, it shields extinguishers from corrosion, physical damage, and unauthorized access. The enclosure features a clear viewing window, allowing for quick identification of the extinguisher type and fill level to ensure compliance and readiness.

Technical Specifications

Compatible Extinguisher Size	6 kg
Capacity Range	4 kg to 8 kg
