

Firefighter Pick-Head Axe with Wooden Handle

This firefighter axe features a red-painted, pick-head design with a gray cutting edge. It is paired with a light-colored wooden handle and designed for forcible entry and ventilation during firefighting operations.

Product Overview

Professional Firefighting Tool

This pick-head axe is a specialized tool designed specifically for the rigorous demands of firefighting operations. Featuring a durable red-painted head with a high-visibility finish and a sharp, functional pick for forcible entry, it provides essential utility for ventilation and rescue tasks. The reliable wooden handle ensures a comfortable grip and effective leverage during critical emergency situations.
