

Firefighter's Forcible Entry Axe

This heavy-duty fireman's axe is designed for forcible entry and rescue operations. It features a drop-forged steel head for maximum strength and durability, along with a fiberglass handle for excellent grip and shock absorption.

Overview

Heavy-Duty Forcible Entry Tool

This professional-grade firefighter's axe is engineered specifically for demanding forcible entry and rescue operations. Built with a drop-forged steel head, it delivers exceptional impact strength and long-term durability in high-stress environments. The ergonomic fiberglass handle is designed to provide superior grip and effective shock absorption, ensuring safety and efficiency when cutting through doors, windows, and structural obstacles.

Construction

Head Material	Drop-forged steel
Handle Material	Fiberglass

Key Features

Handle Performance

- Excellent grip
- Shock absorption

Versatility

Door breaching • Window removal • Obstacle clearance

Primary Application	Forcible Entry, Rescue Operations
