Product Overview

Fireproof Roller Shutter Operator

This fireproof roller shutter operator is engineered for reliable and safe performance in commercial and industrial environments where fire resistance is essential. Featuring a robust construction with a reliable chain drive mechanism, these units ensure smooth and efficient operation of heavy rolling doors. The system is enclosed in a durable metallic housing, providing protection against environmental factors while maintaining safety compliance.

Technical Specifications

Performance Parameters

Model	Power (W)	Torque (N.m)	Speed (r/min)	Max Distance (m)
FJF318-3P	180	318	6.5	6
FJF534-3P	250	534	6.5	6
FJF604-3P	250	604	6.5	6
FJF850-3P	550	850	5.06	6
FJF1045-3P	550	1045	5.5	6
FJF1335-3P	600	1335	6.4	6
FJF1526-3P	800	1526	4.9	6

Electrical Standards

Voltage & Frequency	220V, 50Hz
Rated Current	10 A

Product Features

Key Features	Fireproof, Chain Drive, Metallic Housing, Industrial Grade
