

Five-Burner Stainless Steel Gas Hob

This gas hob features five burners, including a triple flame wok burner. It includes rapid, semi-rapid, and auxiliary burners, offering versatile cooking options.

Overview

Professional Performance and Reliability

This five-burner gas hob is engineered for high-performance cooking, featuring a versatile layout that includes a powerful triple-flame wok burner for rapid heat. Designed with safety and convenience in mind, it incorporates flame failure protection on every burner and intuitive front-control auto-ignition. The sleek stainless steel finish and durable tempered glass worktop make it a robust and stylish addition to any modern kitchen environment.
