

Five-Outlet Power Strip with European Plug

This power strip features five sockets for powering multiple devices. It is equipped with a European-style plug and a white cord.

Product Overview

Reliable Power Distribution

This five-outlet power strip is designed for efficient indoor power distribution, allowing you to connect multiple devices to a single power source. Featuring a clean, white aesthetic and a standard European-style plug, it integrates seamlessly into office or home environments. Safety is prioritized with integrated child security features, ensuring peace of mind during daily operation.
