

Five-Spoke Alloy Wheel with Two-Tone Finish

This high-performance alloy wheel is designed for enhanced aesthetics and improved driving dynamics. It features a five-spoke design with a two-tone finish, combining a dark gray metallic base with silver accents.

Product Overview

High-Performance Alloy Wheel

This high-performance alloy wheel is engineered for both enhanced aesthetics and superior driving dynamics. Featuring a sophisticated five-spoke design with a striking two-tone finish, it combines a dark gray metallic base with silver accents along the spoke edges. The wheel is precision-crafted to optimize the balance between strength and weight, contributing to improved vehicle handling and overall fuel efficiency.

Design & Aesthetics

Finish

Two-Tone • Dark Gray Metallic • Silver Accents

Spoke Configuration

Five-spoke

Engineering

Performance Benefits

- Enhanced driving dynamics
- Optimized strength-to-weight ratio
- Improved vehicle handling
- Increased fuel efficiency

Compatibility Features

Precision-crafted, Universal center cap accommodation
