

Five-Zone Ceramic Cooktop

This high-efficiency ceramic cooktop features five heating zones for precise temperature control and rapid heating. The sleek black glass surface is durable and easy to clean.

Product Overview

Professional Five-Zone Ceramic Cooktop

This 86cm wide ceramic cooktop is designed for high-performance kitchen environments, featuring five distinct heating zones for versatile cooking. Built with durable Chinese ceramic glass, it offers intuitive touch controls and essential safety features including auto switch-off, child locks, and residual heat indicators. With a rapid 99-minute timer and efficient power management, this unit combines modern aesthetic appeal with reliable functionality for professional culinary needs.
