

Fixed Plate Plastic Caster Wheel

This small caster features a fixed top plate for secure mounting. The wheel is made of durable plastic, providing smooth and quiet rolling.

Product Overview

Durable Fixed Plate Caster

This fixed plate plastic caster wheel is designed for secure, stable mounting in various light-duty applications. Constructed with a robust metal bracket and a durable plastic wheel, it ensures smooth and quiet mobility for furniture, carts, and equipment. The fixed top plate configuration provides reliable directional tracking, making it an ideal choice for tasks requiring consistent straight-line movement.
