Product Overview

Comprehensive Upgrade Solution

This upgrade body kit is designed to seamlessly transform older FJ200 models (2008-2012) to the modern 2016-2020 aesthetic. The kit includes a complete set of exterior panels, lighting components, and structural parts to ensure a factory-like finish. By replacing key body elements, this package provides a cost-effective way to achieve a contemporary, aggressive look without replacing the entire vehicle.
