

Flap Wheel Abrasive Grinding Wheel

This flap wheel is designed for grinding and polishing applications. It features abrasive flaps arranged around a central hub and is suitable for use with angle grinders and similar power tools.

Overview

Versatile Flap Wheel for Precision Finishing

This flap wheel is engineered for effective grinding and polishing applications across a variety of materials, including metal, wood, and plastic. Featuring abrasive flaps arranged radially around a central hub, it provides a flexible surface that easily adapts to contours and complex shapes. Designed for compatibility with angle grinders and similar power tools, this tool is an essential component for achieving high-quality surface finishes.
