Product Overview

High-Performance Flat Ethernet Patch Cord

This flat network cable is engineered for versatility and efficiency, featuring a soft, flexible construction that is ideal for wiring in narrow spaces. Its design minimizes cable clutter and enhances airflow within high-density environments like racks and cabinets. With high-quality gold-plated connectors, it ensures reliable signal transmission and long-lasting performance for data centers, offices, and home networking.

Technical Features

Design Characteristics	Flat Profile, Flexible, Space-saving, High-density compatible
Connector Type	RJ45
Contact Plating	Gold-plated

Application & Usage

Ideal Use Cases

- Data Centers
- Office Networks
- Home Networking
- Narrow Space Wiring

Flex Resistance	Enhanced dry flex resistance
