

Flat Eye Webbing Sling

This flat webbing sling is designed for lifting heavy loads. It is made from durable synthetic fibers and features reinforced loops at both ends for secure attachment.

Product Overview

High-Strength Flat Webbing Sling

This flat eye webbing sling is engineered for heavy-duty lifting across construction, manufacturing, and transportation sectors. Constructed from durable, high-strength synthetic fibers, it offers exceptional resistance to abrasion and wear for long-lasting performance. The design features reinforced loops at both ends, ensuring secure attachment and reliability during demanding lifting operations.

Technical Specifications

Suitable Applications

- Construction
- Manufacturing
- Transportation

Material	Synthetic Fiber
Key Features	High-Strength, Abrasion Resistant, Reinforced Loops, Wear Resistant
