

Flat Indoor TV Antenna

This indoor TV antenna features integrated circuitry within a thin profile. It is designed for ease of positioning to optimize signal reception.

Overview

High-Performance Indoor TV Reception

This flat indoor TV antenna is engineered with high-tech circuitry to provide reliable access to full HD and digital television signals. Featuring a slim, ultra-thin profile, it offers versatile wall or window mounting options for discreet installation. The included detachable amplifier allows users to customize reception based on their specific signal environment, ensuring clear VHF and UHF broadcast capture.

Technical Specifications

Frequency Range (VHF)	174-230 MHz
Frequency Range (UHF)	470-862 MHz
Output Level	105 dBuV
Noise Figure	3.5 dB
Impedance	75 Ω
Working Voltage	DC 5V/550mA

Features

Key Features

- Super thin profile
- Detachable amplifier included
- Multiple positioning options
- Full HD and digital signal support
- Flexible power via AC/DC adapter or digital receiver

Mounting	Wall Mount, Window Mount
