

Flat Material Storage Rack

This A-frame rack is designed for the safe storage and transport of flat materials, such as glass and stone. It features a robust steel construction with vertical supports and rubber padding.

Overview

Heavy-Duty Material Storage Solution

This robust A-frame rack is engineered for the safe storage and transport of flat materials such as glass sheets and stone slabs. Constructed from high-strength steel with a durable powder-coated finish, it provides excellent corrosion resistance for long-term use. The design features multiple vertical supports and protective rubber padding to ensure materials remain secure and undamaged during handling.

Physical Properties

Construction Material	Steel
Finish	Powder-coated

Features

Key Features	A-frame design, Rubber padding, Corrosion resistant, Swivel casters
--------------	---

Usage

Ideal Applications

- Glass shops
- Stone fabrication facilities
- Construction sites

Compatible Materials

Glass sheets • Stone slabs • Flat materials
