

Flat Panel Television with Integrated Speakers

This flat panel television features integrated speakers on either side of the screen. The display is surrounded by a thick bezel, with a control panel and power indicator light located below the screen.

Product Overview

Professional Display Solution

This flat panel television is designed with a sleek, modern aesthetic suitable for various professional environments. Featuring integrated speakers on either side, it delivers an all-in-one audiovisual solution without the need for external audio hardware. The unit is characterized by a glossy black finish and a robust, thick-bezel design that ensures durability while maintaining a clean look.
