

Flat Screen LCD Television

This LCD television features a flat screen design for optimal viewing. Integrated speakers provide enhanced audio quality.

Overview

High-Performance LED Backlit Display

This flat screen LCD television utilizes advanced LED backlight technology to deliver high brightness and consistent performance over a long lifespan. Its slim, aesthetic design is complemented by a hard screen panel that ensures soft, comfortable color reproduction for the viewer. Furthermore, the unit is engineered for energy efficiency and environmental sustainability, featuring low radiation emissions for a safer viewing experience.

Key Features

Environmental & Safety

- Energy efficient
- Environmentally friendly
