Overview

High-Performance Modular Conveyor Belt

This flat top modular plastic conveyor belt is engineered for demanding industrial environments, particularly in food processing sectors like poultry and meat handling. Featuring a robust, hygienic design, it offers exceptional durability with a maintenance-free profile and easy cleaning capabilities. The system supports substantial loads up to 1.2 tons per square meter, making it a reliable solution for efficient product transport.

Technical Specifications

Physical Dimensions

Specification	Value
Pitch	25.4 mm
Thickness	10 mm
Minimum Width	45 mm
Rod Diameter	4.9 mm

Operating Specifications

-40 °C Min Temperature	260 °C Max Temperature	1.2 tons/m² Max Load Capacity
----------------------------------	----------------------------------	--

Available Colors

White • Blue • Gray • Nature • Dark-brown

Material Composition	PP, POM, PE, PA
Compliance	FDA Approved, EU Approved

Features & Design

Design Features

- Flat top surface
- Includes flight/cleats
- Includes side guard
- 0% Open area
- Straight running design

Sprocket Compatibility

7T, 8T, 10T, 12T, 16T, 20T (Square and round bore options)

Applications

Food Industry Applications

- Meat (beef & pork)
- Poultry processing
- Sea food
- Bakery
- Snack food
- Fruit & vegetables

Non-Food Industry Applications

- Automotive
- Tire manufacturing
- Packaging
- Printing/Paper
- Postal
- Corrugated cardboard
- Can manufacturing
- PET manufacturing
- Textile
