Overview

High-Performance Modular Conveyor Belt

This flat top modular plastic conveyor belt is engineered for demanding industrial environments, particularly in food processing sectors like meat, poultry, and seafood. Designed with a 0% open area, it provides a stable and hygienic surface that is easy to clean and maintain. The belt supports significant loads of up to 1.2 tons per square meter and offers a service life significantly longer than traditional conveyor belts.

Technical Specifications

Dimensions & Geometry

25.4 mm
Pitch

10.2 mm
Thickness

152 mm
Minimum Width

5.3 mm
Rod Diameter

Regulatory Compliance

FDA Approved • EU Compliant

Material & Compatibility

PP, POM, PE, PA

Operating Conditions

-40°C to 260°C

Configuration & Features

Integrated Features

- Flight included
- Side guard included
- Curve capability: No
- Flat top surface
- Maintenance-free design

Sprocket Compatibility

Specification	Details
Available Tooth Counts	8T, 10T, 12T, 16T, 20T
Bore Types	Square, Round

Performance

Maximum Load Capacity	1.2 tons/sqm
-----------------------	--------------

Applications

Food Industry Applications	Meat Processing, Poultry, Seafood, Bakery, Snack Food, Fruit & Vegetables
General Industrial Applications	Automotive, Tire Manufacturing, Packaging, Printing/Paper, Postal, Corrugated Cardboard, Can Manufacturing, PET Manufacturing, Textile
