

Flat Wood Drill Bit Set

This set includes seven flat drill bits with a titanium coating. The bits are ideal for creating flat-bottomed holes in wood.

Product Overview

Professional 7-Piece Flat Wood Drill Bit Set

This comprehensive 7-piece flat drill bit set is designed for precision boring in wood and similar materials. Featuring a range of sizes from 10mm to 32mm, these bits are ideal for creating clean, flat-bottomed holes. The 150mm length provides ample reach for various woodworking applications, while the titanium coating and carbon steel construction ensure durability and efficient performance.
